

## REPLACEMENT SHED/GREENHOUSE WINDOWS - CLEANING INSTRUCTIONS

### **Cleaning**

PERSPEX or POLYCARBONATE replacement shed windows should be washed simply with clean cold water to which a little detergent has been added. The use any solvents such as methylated spirits, turpentine, white spirit or proprietary window cleaning products is neither necessary nor recommended as it will rapidly marr the surface beyond repair. Never scrape the sheet with squeegees, razor blades or other sharp instruments. Only ever use a soft cloth.
